Hello Heng,

We have noticed that you are currently travelling away from London.

Are you aware that your destination country currently has a HIGH Health Risk profile? There is a really bad flu epidemic in New York right now and we are concerned with you since you have had severe health experience with influenza in the past.

To save you from hefty hospital and doctor fee, why don't you protect yourself with Allianz Travel Insurance package that starts from as little as £ 43.71 a day?

And knowing how much we care about you, we will give a complementary flu shot with the package.

Have a great and safe trip! Be CarefulNow!
